

My Library Story—Canton

My Granddaughter and I came to the library today to the Leonardo Music program. It was fantastic. After the program they served sack lunches for the children.

As a retired teacher I found many different educational activities available for all ages. Lego activities, coloring activities, reading activities, and an outstanding supply of books. No matter who your child's favorite author is they have books by that author.

The staff at Canton Library are very friendly, knowledgeable and helpful. If you get a chance, please come by and visit. While you are here, be sure and check out the activities planned for your children for the summer.
