

"I am 81 years old and pretty much home bound. Reading is a major part of my slower lifestyle. The Flora Library not only keeps me supplied with in-stock books but allows me to read more of my favorites through their regional sending system.

The services and staff at the Flora Library are truly one of the major factors in making my later years golden.

My next goal at the library is to begin using their electronic books on my iPad.

Keep up the good work guys-a lot of us are depending on you for a more fulfilling life."
